Work Experience

Sr. Full-stack Web Developer

[Excellent WebWorld Pvt. Ltd.](#) - Ahmedabad

April 2022 - Present

- Online salon booking app
 - Technologies worked with - ReactJS, NodeJS, ExpressJS, MySQL, AWS ec2, CoreUI, Prisma
 - The project focused on booking management of different services of salons.
 - I bootstrapped an admin panel for back office management and a server for the admin panel and two applications of customers and service providers.
 - I worked as a project technical lead for the project where I managed a team of 2 backend developers and 2 frontend developers.
- Security camera system
 - Technologies worked with - ReactJS, NodeJS, ExpressJS, MSSQL, AWS ec2, Material UI, TypeORM
 - I completed an ongoing project that focused on a system of online camera monitoring and reporting it using an application and admin panel.
 - I worked as a full-stack developer to make the admin panel and the server. I worked with a completely remote team and learned to effectively manage the tasks remotely.
- ECG monitoring system
 - Technologies worked with - ElectronJS
 - I completed an ongoing project that focused on ECG monitoring of patients.
 - I worked with the IoT device which was made in-house and used ElectronJS to make the Linux application to run it with Jetson nano.

Front-end Web Developer

[Tatvasoft](#) - Ahmedabad

May 2021 - April 2022

- Ed-tech platform
 - Technologies worked with - ReactJS, Material UI, Redux
 - The project focused on building an interactive ed-tech platform where students can learn through real-time whiteboard and video features.
 - I worked as a front-end developer to work with the team.

Front-end Web Developer

[SoftVan Pvt. Ltd.](#) - Ahmedabad, Gujarat

July 2020 - May 2021

- Social platform for professionals
 - Technologies worked with - ReactJS, Material UI, Redux
 - The project focused on building a social platform for working professionals where the companies can find the candidates based on their skills and reviews. The platform also supported online certifications in collaboration with a 3rd party company.
 - I worked as a front-end developer to work with the team.

Python Developer Intern

[Crest Data Systems Pvt. Ltd.](#) - Ahmedabad, Gujarat

August 2019 - April 2020

- Splunk core QA automation
 - Technologies worked with - Python
 - The project focused on automating QA tasks of Splunk using Python.
- Jira analysis using Splunk
 - Technologies worked with - Python, Splunk
 - The project focused on making dashboards in Splunk for projects in Jira.
